

Is your biodiesel ready for winter weather?

- Community Fuels is your reliable and proven supplier. We meet the year-round quality requirements of multiple major oil companies.
- Did you know that monoglycerides in your fuel may contribute to fuel filter plugging at temperatures above the cloud point? Community Fuels biodiesel is known for its reliable fuel performance and high purity, including low monoglyceride levels.
- Do you understand the risks associated with biodiesel that has been treated with cold flow additives? Additives are no replacement for high quality fuel. Additives blended with biodiesel may compromise the performance of cold flow additives in your petroleum diesel.
- Is your fuel suitable for the multi-climate regions of PADD 4 and PADD 5? Fuel performance matters. Biodiesel fuel quality matters. Rely on Community Fuels as your trusted and proven supplier of high quality, performance-driven biodiesel fuel.

Contact Community Fuels now to establish a relationship for reliable supply of high quality biodiesel fuels. **Call (760)942-9306 or email sales@communityfuels.com now!**
